

Step-by-Step Procedure on Video Conversion

Installation of the program:

1. Run the installation program "x-video-converter".
2. Follow the step-by-step instructions on the screen.
3. After the installation is completed, run the application "Xilisoft Video Converter 3".
4. Click the "Enter Registration Code" from "Help" menu.
5. Enter the Registration info i.e. "Name" and "Registration Code".
[You will find the required registration info in the "Registration Info" file.]

Conversion of the video file into .avi format:

1. Add the desired video file by clicking the **Add** button on the program window.
2. Change the "Profile" to "AVI – Audio Video Interleaved (*.avi)".
3. Click the video file you want to convert and make the changes to the existing video and audio configuration as instructed below:

Video	
Video Codec	mjpeg
Video Size	Auto
Bit Rate	1200
Frame Rate	≤15
Aspect	Auto
Same Quality	False
Audio	
Audio Codec	Pcm_s16le
Bit Rate	32
Sample Rate	8000
Channels	1(Mono)
Disable Audio	False

4. Change the "Destination" by clicking the **Browse...** button. [optional].
5. Click the **Encode** button to convert.

Now the converted video file is ready to transfer to your handset.
